

Deck Oven D-Series

How to build your Deck Oven

Specification

Oven widths: 1075 to 2335 mm.

Max 5 low (B1) or high (B2) decks, always with a top part (A) and bottom part (C).

Underbuilt prover (DJ) available for D1, D2, D2E, D3.

Standard legs (D): 100, 200, 300 to 1000 mm. Other lengths available on request.

Castors are standard.

D12E-D42E available in a deep execution - D12ED, D22ED, D32ED, D42ED.

Designation oven type

D X 2 E

D = D-Series model.

X = number of decks. The maximum number of decks is 5.

2 E = oven width where E stands for extra wide.

The decks are numbered from top to bottom. The top deck is deck 1.
